to

117 countries

providing over

35 million CYP

couple years of protection

Humanitarian Action: 2016 RESULTS ACHIEVED

11.4 Million

Total people reached with SRH and GBV services in humanitarian settings in 55 countries

481

Number of mobile clinics in 27 countries

2,488

Number of facilities supported that provide emergency obstetric care to ensure safe birth in 38 countries

9,959

Number of youth facilitators and volunteers trained on SRH in 27 countries

485

Number of safe spaces in 34 countries

741

Number of facilities supported that provide clinical management of rape in 33 countries

IRAQ

On 8 December 2016, the single largest humanitarian convoy reached eastern Mosul. In an inter-agency effort that took massive coordination, UNFPA, UNICEF, and WFP delivered badly needed aid to 42,000 people. For women and girls, UNFPA provided dignity kits with hygiene items including soap, clothing and menstrual supplies.

Emergency Reproductive Health Kits

One of UNFPA's standard humanitarian interventions is providing reproductive health kits that contain life-saving medicines, supplies including contraceptives and medical equipment, to address the immediate sexual and reproductive health needs of the community in a crisis.

The most basic kit is the clean delivery kit for pregnant displaced/refugee women on the move: the kit contains a bar of soap, a razor blade to cut the umbilical cord and a string to tie it, plastic gloves and sheeting to facilitate a safe birth.

The largest kit, weighing more than a ton, is the comprehensive emergency obstetric care kit that has everything needed to set up a maternity surgery unit to perform caesarean-sections in cases of obstructed labour to save the lives of women and newborns.

Emergency RH Kits delivered in 2016

11,500

UNFPA Procurement Services

A consolidated source for reproductive health supplies

UNFPA Procurement Services partners with governments and NGOs to access UNFPA's knowledge and purchasing capacity so that they can make the best use of their own financial resources and donor funds to procure RH supplies.

The service is built on partnerships and is not-for-profit.

Review RHinterchange Data

Global and national contraceptive order information

Access up-to-date data on more than US \$1.0 billion worth of contraceptive orders and shipments for more than 140 countries.

What is the RHinterchange?

The Reproductive Health Interchange (RHI) provides access to harmonized data on contraceptive orders and shipments for over 140 countries. The data currently reflects over 90% of contraceptive supplies provided by donors over the last several years, worth more than \$2.3 billion.

Select a report from the menu on the left to view past and upcoming contraceptive shipments. Use the data and reports for pipeline monitoring, commodity management, analysis and planning. To learn more about the RHI, download the RHI factsheet.

Who provides the data?

The RHI data comes from the central procurement offices of major contraceptive donors and other organizations that procure contraceptives. This includes such organizations as UNFPA, MSI, PHS, USAID and UNFPA, among others. For a comprehensive list and notes about the data, see [About the Data](#).

Register for access to all reports. For support and custom reports, contact us.

Interested in including data from your organization or ministry in the RHinterchange? Please contact access@unfpa.org for more information.

How can the RHinterchange help you?

- When contraceptives were shipped
- When will the next shipment arrive?
- What value of contraceptives was sent?
- What is funding contraceptive?
- What quantity of contraceptives was sent?

Partners

UNFPA has been recognized by DFID for its role of improving efficiency for procurement and supply of quality assured reproductive health commodities at a global level

Procurement processes within the UNFPA Supplies program received an audit rating of A from a 2015 DFID annual review

•UNFPA

.PROCUREMENT &
LOGISTICS
PARTNERSHIPS IN
HEALTH

.2017

Benefits of UN joint procurement activities

Cost Avoidance & Direct Savings

- Lower administrative and transactional costs
- Standardization, technical knowledge
- Better prices and rebates
- Lead agency concept

Strengthening Key initiatives

- Sustainability – Greening the Blue and collaborative initiatives with suppliers
- Social Responsibility – UN Global Compact
- Fight against fraud and corruption – Vendor Sanctions

UNFPA procurement activities with other UN partners

- A consistent effort since 2011 to harmonize and collaborate, seeking more efficient processes, strengthened procurement practices, and lower costs for all participating Agencies across products, services, and sectors
- UNICEF
 - Hospital furniture, QA Inspection services, Freight Forwarding services
 - Sharing of outcomes of inspection & technical assessment reports
- UNDP, UNOPS and other Agencies:
 - Cargo Insurance services, travel management services, medical devices, pharmaceuticals, language training, vehicle procurement

UNFPA collaborative activities with WFP

•Partnering for Supply Chain Results

- Initiative unites UNFPA's procurement expertise in reproductive health commodities with WFP's logistics leadership, creating mutually benefiting economies of scale.
 - obtain leverage of both agencies capacities and strengthen our collaboration;
 - make use of WFP freight competitive services and obtain reduced freight costs;
 - reach difficult destinations, especially where UNFPA and WFP delivers humanitarian assistance
-
- The initiative represents an opportunity for UNFPA and WFP to reflect our commitment to supply chain excellence, '*SDG 17 Partnership for Results*'.

UNFPA collaboration with non-UN partners

- Collaborating with other public procurers of RH commodities to ensure efficiencies
- Optimize cost reduction
 - Standardizing requirements for tender processes amongst partners as well as KPIs
 - Sharing of outcomes of inspection & technical assessment reports
 - Sharing of procurement best practices
- Innovative projects which contribute to efficiency:
 - Joint forecasting/supply planning
 - Analyzing possibility to implement a track & trace solution based on GS1-standards.

UNFPA collaboration with non-UN partners

- **Coordinated Supply Planning (CSP)**

- CSP is a workstream of the Reproductive Health Supplies Coalition's (RHSC) System Strengthening Working Group. Its members include representatives of UNFPA's Procurement Services and Commodity Security Branches, USAID, the Clinton Health Access Initiative (CHAI), John Snow, Inc. (through the Implant Access Program and the USAID | DELIVER PROJECT), and the RHSC.

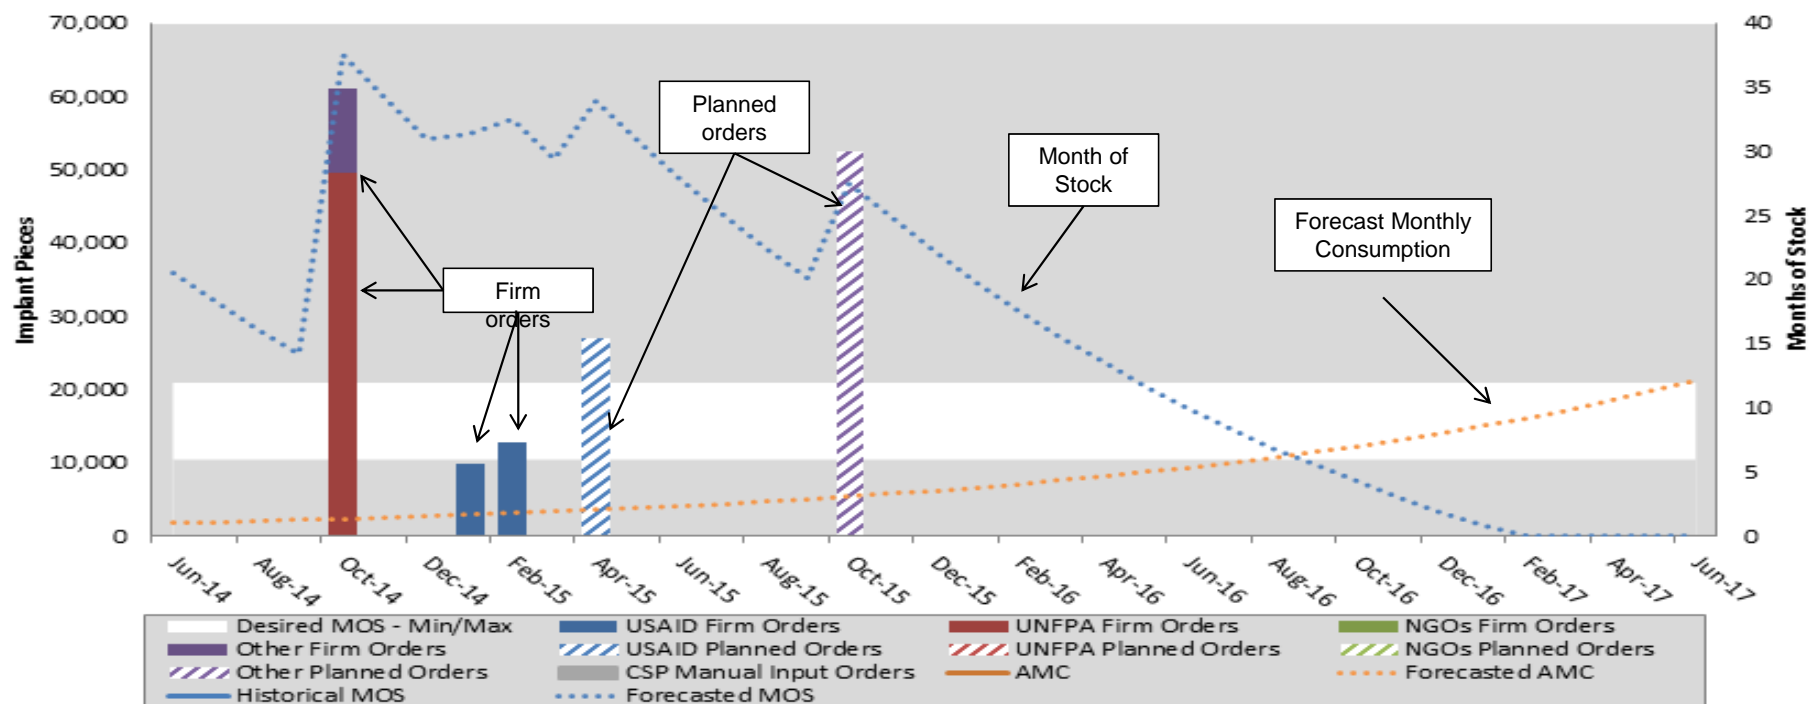

-

The group's objectives are to co-develop UNFPA and USAID forecasts and supply plans for specific products for production planning, advocacy for commodity funding, contract negotiation, ensuring continuous supply, rational allocations, and other uses.

Coordination Planning Tool – Example Country X

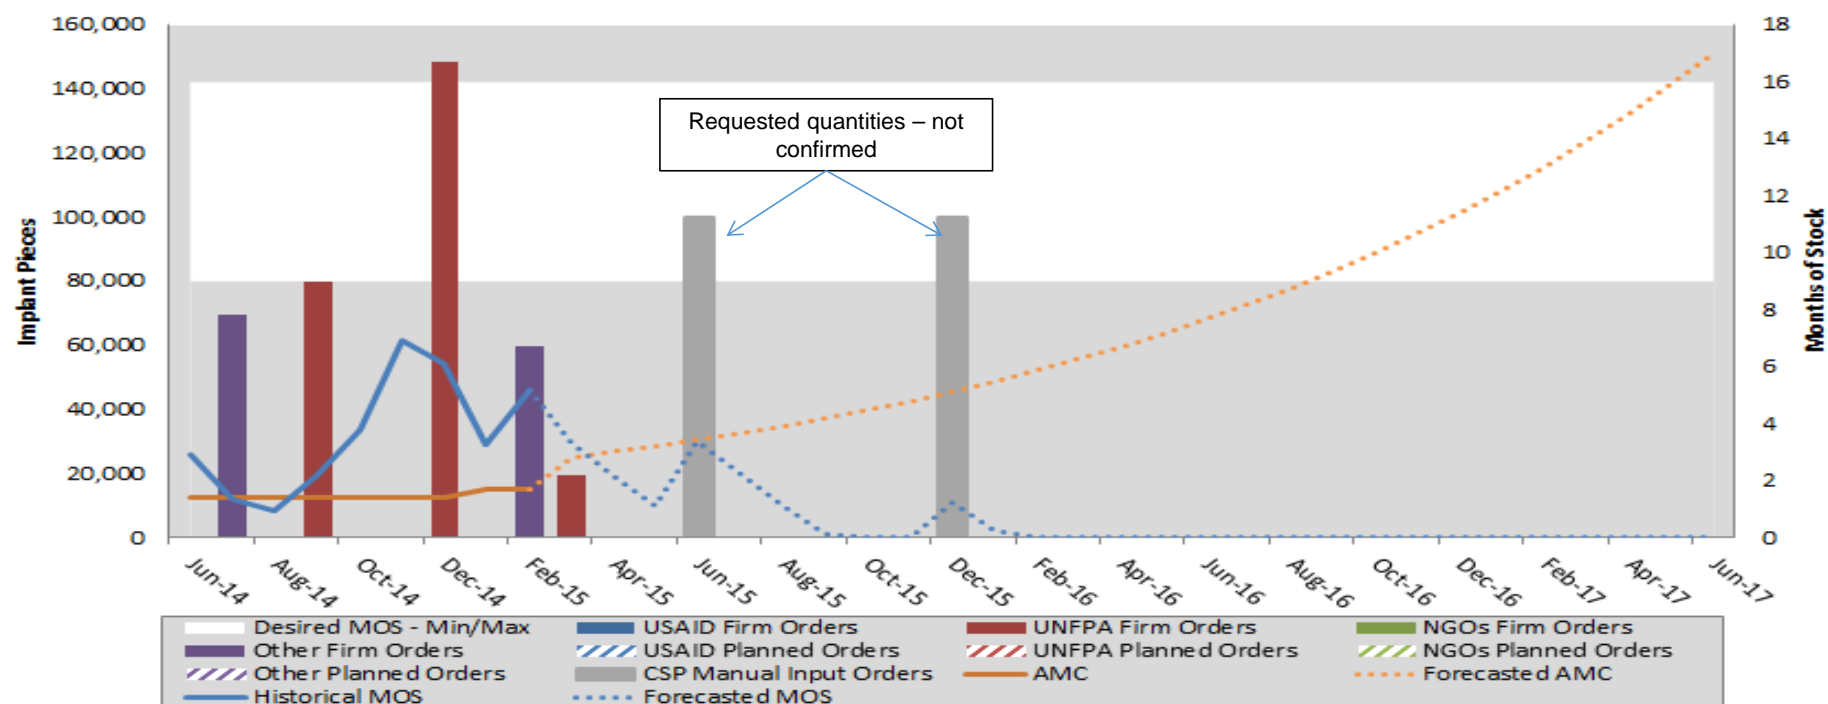

Jadelle, Monthly Supply Plan Summary

Coordination Planning Tool – Example Country Y

Jadelle, Monthly Supply Plan Summary

Outcomes of CSP activities:

- USAID reduced production order of Jadelle implants by 25,000 so that UNFPA could use inventory to ship to PNG sooner.
- Myanmar MoH delayed 50,000 of 83,800 order until July 2016; allocated 50,000 for earlier shipment to Kenya.
- USAID reduced production order by 25,600 so that UNFPA could use inventory to ship to Nigeria sooner.

UNFPA Collaboration with other organizations

- UNFPA and The Global Fund have signed an agreement to offer male condoms, female condoms and lubricants to TGF Principal Recipients (PRs).
- **Objective**
 - To provide access to quality assured, competitively priced RH commodities
- UNFPA will be featured on TGF new online tool, wambo.org, a global marketplace for PR and suppliers of life-saving medicines and health-related commodities.
- Launch date: October 2016

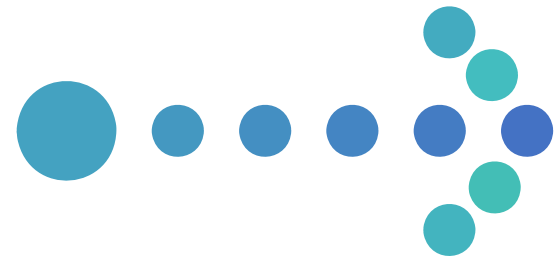

Collaboration between TGF - UNFPA

Principal Recipients

UNFPA

- Quality assured
- Competitive prices
- Wide choice of RH commodities

Collaboration with Suppliers

- Annual Supplier workshops of Core commodities
 - Share best practices among suppliers;
 - Enhance supply performance to UNFPA;
 - Identify areas where UNFPA procurement can improve their support of suppliers delivery;
 - Inform of UNFPA's projects & trends in procurement.
- Hands on Performance assessment
 - Allowing to target improvement opportunities
 - In future to promote benchmark within commodity
- Access to collaborative Registration procedures
 - Faster start of procurement and wider availability of PQ medicines
 - Assurance about the same medicines being PQed
