Welcome IAPHL scholarship recipients
Nelson Mandela was tireless in his pursuit of equality and justice for all. As we celebrate #Mandela100, let's resolve to do everything we can to create the world he dreamed of. #MandelaDay

Sheikh Zayed bin Sultan Al Nahyan was born in the Emirate of Abu Dhabi in 1918, youngest of the four sons of Sheikh Sultan Bin Zayed, the Ruler of Abu Dhabi from 1922-1926 #YearofZayed
• Over 120 organizations represented
• A conference that tackles the health and humanitarian systems, the two need to work together
• Objective of conference:
  – strengthen SC and related activities,
  – facilitate dialogue across organizations and sectors (to help set agendas and priorities)
Messages from the keynote speaker
Jagan Chapagain

1. Whole of society approach: better coordination and collaboration
2. Community at centre: putting communities at the center of the action
3. Onehealth: consider the whole public health system, not just humanitarian interventions

@chartjsi · 9h
The health services are out front, the supply chain is hidden behind.

Panel 1: Public Health Emergencies

“Universal health coverage and health emergencies are cousins—two sides of the same coin. Strengthening health systems is the best way to safeguard against health crises. Outbreaks are inevitable, but epidemics are not. Strong health systems are our best defense to prevent disease outbreaks from becoming epidemics.”

- Dr Tedros Adhanom Ghebreyesus

Actions for prevention:

• Good surveillance
• Community-based alert systems & interventions
• Public institutions
• Keep training health workers,
• Need for a holistic approach
Panel 2: Public Health Systems Strengthening

Leadership, Management, Governance
Panel 2: Public Health Systems Strengthening

The Role of Public Health Institutions in Global Health System Strengthening Efforts: The US CDC’s Perspective

Peter Bloland, Patricia Simone, Brent Burkholder, Laurence Slutsker, Kevin M. De Cock
Published: April 3, 2012 • https://doi.org/10.1371/journal.pmed.1001199

The WHO Health Systems Framework

- Leadership / governance
- Health care financing
- Health workforce
- Medical products, technologies
- Information and research
- Service delivery

Goals/outcomes:
- Improved health (level and equity)
- Responsiveness
- Financial risk protection
- Improved efficiency

Five success factors — ‘G-R-A-S-P’
- Good Governance (political power)
- Political Commitment & Ownership (soul/spirit)
- Health System Research & Regulatory Capacity (brain)
- Adequate and Equitable Health Systems (body)
- S-A-F-E financing (energy)
Presentations/Workshops Sessions 1 & 2

Health and Humanitarian Logistics 2018

July 18-19 • Dubai, UAE
Call for Action

1. What knowledge you can take away and apply for yourself, your colleagues and constituents
2. What action will you take?
3. What action will you encourage others to take?
